SAFe® PROVIDED BY SCALED AGILE | COURSES

SAFe® Product Owner/ Product Manager

Delivering value through effective Planning Interval execution

Develop the skillsets needed to guide the delivery of value in a Lean Enterprise by becoming a SAFe® Product Owner/Product Manager (POPM).

During this two-day course, attendees gain an in-depth understanding of how to effectively perform their role in the Agile Release Train (ART) as it delivers value through Planning Intervals (PI). Attendees explore how to apply Lean thinking to decompose Epics into Features and Stories, refine Features and Stories, manage ART and Team backlogs, and plan and execute Iterations and Planning Intervals. Attendees also discover how the Continuous Delivery Pipeline and DevOps culture contribute to the relentless improvement of the ART.

With SAFe® Product Owner/Product Manager (POPM) 6.0 certification

SAFe® Product Owner/ Product Manager

With SAFe® Product Owner/Product Manager (POPM) 6.0 certification

POPM SAFe® 6

Who will benefit?

The following individuals will benefit from this course:

- Product Owners, Product Managers, Product Line Managers, Business Owners, and Business Analysts
- Solution Managers, Portfolio Managers, Program Managers, and members of the LACE
- Enterprise, Solution, and System Architects

Product Managers and Product Owners are at the epicenter of enterprise transformations, and their performance and knowledge of SAFe makes all the difference when it comes to delivering on the promise of value that is achievable through adopting SAFe.

What you'll learn

To perform the role of a SAFe® Product Owner/Product Manager, you should be able to:

- Articulate the Product Owner and Product Manager roles
- Connect SAFe Lean-Agile principles and values to the PO/PM roles
- Decompose Epics into Features and decompose Features into Stories
- Manage ART and Team backlogs
- Collaborate with Agile teams in estimating and forecasting work
- Represent Customer needs in PI Planning
- Execute the Planning Interval and deliver continuous value

Topics covered

- Becoming a Product Owner/Product Manager in the SAFe enterprise
- Preparing for PI Planning
- Leading PI Planning
- Executing Iterations
- Executing the Planning Interval
- Becoming a Certified SAFe® Product Owner/Product Manager

> Having a clear methodology and training in place has been very helpful when hiring people. Being able to tell candidates that we take Agile principles seriously—by mentioning that we have trained and certified Product Owners and Scrum Masters, and that we follow a clear Agile path—definitely makes a difference."
>
> — **Walter Bauer,** CTO, *censhare*

Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® Product Owner/Product Manager (POPM) 6.0 certification exam:

- Attend a Leading SAFe® course
- Experience working in a SAFe environment
- Experience with Lean, Agile, or other relevant certifications

What you get

Class registration includes:

- Attendee workbook
- Preparation and eligibility to take the SAFe® Product Owner/Product Manager (POPM) 6.0 certification exam
- One–year membership to SAFe Studio
- Course certificate of completion

Attendees must attend both days of the course in order to qualify for the exam.

Professional Development Units (PDUs) and Scrum Education Units (SEUs)

- Attendees may be eligible to apply for 15 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications
- Attendees may be eligible to apply for SEUs under category C, toward earning or renewing their CSP through Scrum Alliance
