## Curriculum Overview

One of our favorite sayings is from Martha Goedert. If you want to go fast, go alone, if you want to go far, go together. I am sure you have heard the many ways to describe the euphoria we all feel when teams work like a well-oiled machine. Nothing beats when things are in sync, when you and others are working together in perfect harmony.

When done right, working together and being part of a team drives success for both an individual and an organization. When a team grows and learns, so does an organization's ability to be agile and create value for their customers, but you can't simply put a group of people into a room and expect miracles to happen.
