

Paintucation Pro Advisory Board Statement:

We would like to express our sincere appreciation to the members of our Advisory Board for their invaluable input and unwavering support in advancing our technical collision repair training systems. Your expertise and deep industry knowledge have been instrumental in shaping the direction of our programs, ensuring that they align with the evolving needs of the repair industry. Your commitment to excellence and passion for developing skilled professionals has not only enhanced the quality of our training but also helped us stay ahead of emerging trends and technologies.

Our mission statement offers that: Paintucation LLC will provide training content for fundamental collision repair disciplines using current curriculum, techniques, instruction, and safety training all with a “best-Practice” mindset integrated into each lesson. The target audience of this training program includes entry level students in the collision repair field, studying in a formal trade-school program. Interactive video training will keep the lessons concise and engaging, providing classroom instructors control over the pace and content at their discretion, the goal being to stimulate discussion and information exchange while using a trusted video-asset that is vetted, safe, accurate, and reliable. This fundamental training program gives instruction in the following categories of study:

- 1. Collision Repair fundamentals & best practice mindset**
- 2. Plastic repair**
- 3. Disassembly & Reassembly**
- 4. Small dent repair (steel & aluminum)**
- 5. Refinish fundamentals, skill building techniques, Surface correction techniques, & basic refinish strategies.**

The advisory board values collaboration, integrity, and a commitment to excellence. Advisory board members will participate in regular meetings, provide feedback on strategic plans, and offer expert advice on key decisions. We are truly grateful for the time, effort, and resources you contribute, as your insights play a crucial role in improving the effectiveness and relevance of our curriculum. Your collaborative approach and willingness to share best practices continue to enrich our training environment, helping us provide our students with the most up-to-date and comprehensive education possible. Together, we are making significant strides in shaping the future of collision repair, and we look forward to continuing this productive partnership for years to come.

We value and appreciate your time, energy and input!

Kevin Tetz

President, Paintucation Pro Automotive Training.
