

FOR THE REQUIREMENT THAT COMES BACK EVERY YEAR

Annual TPRM training in your LMS, live in as little as a week.

People follow the third-party process without knowing why each step exists. That is a training problem.

Easy to satisfy, hard to make worth anyone's hour. Get this year's **Third-Party Risk Management (TPRM) training** done three ways: our course as it is, in your brand, or built from your program. Each ships as a SCORM file for your LMS.

WHAT WE HEAR BEFORE EVERY ANNUAL CYCLE

"Where do I even start to request a third party?"

"We have never really trained anyone on this."

"Generic training doesn't fit how we work."

"People click through and retain nothing."

"Last year's course changed no behavior."

EVERY OPTION INCLUDES

Decisions, not definitions

Real vendor scenarios, so people recognize the situation instead of clicking through.

Evidence it landed

Knowledge checks and a final assessment. 3 NASBA CPE on Ready and Branded.

Yours for 12 months

A SCORM file you assign and track in your own LMS. No LMS? We will host it.
