L u n g 2 0 2 6

18th - 19th june 2026

18th Pleural Medicine: From
Fundamentals to Hands-On
Practice
Satellite Course

19th Oncolnsights Lung 2026
Event

NOVA Medical School
Carcavelos Campus

Oncolnsights is a dynamic event series designed to spark critical thinking, foster multidisciplinary dialogue, and bring the latest advances in oncology closer to clinical practice.

Bringing together leading national and international experts, Oncolnsights creates a space for insightful discussions on cutting-edge topics such as biomarkers and personalized therapies, real-world case exploration, and the challenges of accessing innovation in oncology care.

More than a scientific meeting, **Oncolnsights** is a platform for connection, exchange, and forward-thinking—empowering clinicians to navigate the evolving landscape of cancer care with confidence and clarity.

In its inaugural edition, Oncolnsights will shine a spotlight on lung cancer, exploring the latest advances, controversies, and clinical realities shaping patient care today.

Event programme

09:00 – 09:15 Opening Session - Filipa Todo Bom, José Alberto Teixeira

09:15 – 10:00 Lung Cancer Screening: From Evidence to Implementation in Europe and Portugal

- Fernanda Estevinho, Fernando Matos

Medical perspective

Imaging perspective

10:00 – 10:30 Smoking and Lung Cancer: Certainties and Uncertainties - Raquel Rosa, Cristina Braço

Forte (moderator)

10:30 – 11:00 Coffee Break

11:00 – 12:00 Multidisciplinary Tumor Board | Clinical Cases - Ana Figueiredo (moderator), Andreia Daniel, Margarida Felizardo, Jaime Calha, Cristina Varela Pinto, Margarida Aguiar, Rita Oliveira, Samuel Mendes, Ana Amado

Radiology

Nuclear Medicine

Interventional Pulmonology

Pathology

Thoracic Surgery

Medical Oncology and Pulmonology

Radiotherapy

12:00 – 12:30 Therapeutic Approach to NSCLC - Andrea Machado, Magda Alvoeiro (moderators),

Nídia Caires

Early-stage disease

12:30 – 14:00 Lunch

14:00 – 15:00 Therapeutic Approach to NSCLC

Advanced disease without targetable mutations: evidence, controversies, and clinical decisions - Andreia Chaves (moderator), Carlota Baptista

Advanced disease with targetable mutations: biomarker-driven strategies;

Resistance - Rita Rosa (moderator), Diana Neto da Silva

15:00 – 15:30 Emerging strategies and new horizons in Small Cell Lung Carcinoma - Teresa Cardoso (moderator), Carla Simão

15:30 – 16:00 Coffee Break

16:00 – 16:30 Clinical Trials in Lung Cancer: National Overview Marcos Pantarotto (moderator) e João

Moreira Pinto

Access, barriers, and opportunities

16:30 – 17:00 Keynote Lecture - Rosario García Campelo

17:00 – 17:45 Clinical Case Discussion - Diana Neto da Silva, Daniel Cabral (moderator), Jorge Leitão Santos (moderator), Rosario García Campelo

Analysis and discussion of cases presented by participants

17:45 – 18:00 Closing Session - Margarida Felizardo

Industry Partnerships
